

# Virtual PBX (VBX)

## SOLUTION OVERVIEW

With competition on the rise, companies require reliable and stable communication systems to stay ahead of the game. With technology evolving on daily basis, the options have grown to be much more than just a pager, PBX and even a mobile phone. Virtual PBX (VBX) from Cable-Tech offers a high-quality communications service, with advanced PBX features and being “always-on” in the cloud, it gives your business a unique touch. Eliminating the need for expensive and complicated equipment, whilst offering you a future proof technology roadmap, the Virtual PBX will provide the functionality needed to operate your business seamlessly and professionally.
